No other medicine for woman's ills has received such wide-spread and un-qualified endorsement. No other med-lcine we know of has such a record of cures as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been euring woman's ills such as inflammation, ulceration, fibroid tumors, irregularities, periodic pains and nervous prostration, and it is unequalled for carrying women safely through the period of change of life.

Mrs. Pinkham, at Lynn, Mass, invites all sick women to write her for advice. Her advice is free and always helpful.

Liquor Prescriptions.

Court house records here show that three druggiets of Salisbury within that many months have sold the equivalent of 2000 balf pints of whicky on prescriptions written by reputable physicians -all physicians are reputable, or ought to be. A half pint ought to be an average quantity for prescriptions of whisky, so it is charitable to suggest half best results. A large quantity pints rather than plats or quarte, of feed can be placed in the as the larger suggestion might feeder and none of it can be be construed as an intimation that Seliebury people take their approaching, it is anticipated for this machine has been applied for this machine has been applied for the and arrangements for the manufacture of the feeder are will be aumerous this spring and the people have prepared for emergencies. ring women to a sure for female troubles," a Mrs. R. E. Mercer,

In the Courier's Livingston county items mention was made last week of a woman who de-sired a husband. That desire is isfied. In four days after she advertised she was married. It pays to advertise. It each busiose man in Keyteeville was as shrowd as this woman all would advertise in the Courier 52 times each year. It would help our 3. business, their business, and the people who read the advertise—"sweet Eastertide" postcard that "we have left Sedalis," but falls advertise very largely as it is to do it persistently.

to do is persistently.

If Jones sells shoes, he should track of him.

M. H. Pennybaker, recently of Salisbury, is now receiving the week in the paper; so that when Courier at Morris, Minn. Jones is thought of shoes will come to mind; and when shoes thing going about as usual at are in mind Jones will be thought Sumper. of. Then when people want shoes they will go to Jopes. Sometimes an advertisement is answered at once; at other times after many months. But the man who has nerve enough to advertise well, and "keep everinstingly at it," will succeed as sure as the sun shines.

Chicken Feeding Device.

The "outside man" of the Courier was in Dalton Monday. Among others he called upon Kraxberger & Laker. They have perfected an automatic chicken feeder that gives the chickens all the feed they want, any time they want it, provided they are willing to do what man has toearn his bread by the sweat of his brow. By a very simple device the chickens scatter the food, a small quantity at a time, over a circle of twenty feet or so in diameter and the lowis have to hunt and scratch to get it, giving themselves the exer cise they have to have to get the wasted, as the feeder is dam and ret proof, and no grain is
